

WAYNE MEMORIAL
HOSPITAL

September 9, 2008

Dear David H. Wilderman:

Please accept our response to PHC4's FY 2007 Hospital Performance Report. Our data was missing 12% of the *Atlas Outcomes* severity scores for Q3 and without this information PHC4 could not include Wayne Memorial Hospital's data in the upcoming Hospital Performance Report.

Wayne Memorial Hospital implemented a new ELR during Q3 that was associated with our main hospital system/Atlas software. While the error was recognized and in the process of being fixed, the timeframe did not allow our changes to be submitted to PHC4 prior to the deadline. The new ELR software has been repaired and our data will be available for the next report. Should anyone wish to contact us for updated figures, please do not hesitate to contact Nicole Granville, RHIT at 570-253-8278.

We compliment your efforts to encourage hospitals to improve quality of care and contain associated costs for the patients in our community.

Sincerely,

David Hoff
Chief Executive Officer
